

Puppy Guarantee

Although no one can truly guarantee that a puppy will not be afflicted with Hip Dysplasia, Progressive Retinal Atrophy, or any other hereditary diseases, I can guarantee that I breed only sound dogs and have researched the pedigrees to the best of my abilities. It is my goal to reduce the odds of producing a defective pup and at the same time preserve and enhance the breed's natural retrieving desire and hunting instinct. By adhering to these high standards, I offer this guarantee upon compliance of the stated requirements by the purchaser.

Your **Cresthill** puppy comes with a full guarantee that covers any genetic problem, which would prevent the dog from being certified by the Orthopedic Foundation for Animals (OFA) or the Canine Eye Registration Foundation, Inc. (CERF).

Health Guarantee

Your puppy has been seen by my veterinarian, Dr. James Hart, of Ferry Farm Animal Hospital, Fredericksburg, VA for dewclaw removal, general health check-up, and microchip implantation. At age six weeks, your puppy was seen by Dr. Blair of The Animal Eye Care Center of Richmond. All shots and worming are up to date. At the time that you receive your puppy, its health will be rated in excellent condition. **For this Health Guarantee to be in effect, you will need to take your pup to your veterinarian within three days of delivery for a well-puppy check-up.** This is to ensure that the pup is healthy, happy and sound at the time that you receive him/her. If the pup is found to be unsound or unhealthy at the time of arrival, the pup can be returned to me at your expense with a written explanation from your veterinarian along with all the paperwork and I will give you a full refund. If your puppy becomes ill after ten days of purchase I will not be responsible. This guarantee is applicable to the original owner and is non-transferable.
